**Subject:** Permit Fee Schedule

**Date:** September 15, 1997

The Zoning Commission received an indication of a general interest in updating the schedule of permit fees. As a result, the Commission has recently reviewed the fee schedule and prepared a tentative proposal for further review and possible action by the Trustees. The proposal is attached in two formats:

Worksheet -- The current schedule for Ashtabula Township was compared against four other townships and a proposed Ashtabula Township schedule was developed. The bases for the proposed schedule are as follows:

- Bringing the Ashtabula schedule more in line with the other townships,
- Reflecting a rough relationship to the zoning inspector's work requirements for each type of permit,
- Suggested opportunities for additional fees that are not currently covered.

Revised Fee Schedule -- A reformatted fee schedule which provides a logical organization of permit types and for a more detailed explanation of the fee application.

Please review this information at your earliest convenience and take whatever action you deem necessary. The Zoning Commission will be available for further input should you desire it.

The attached fee worksheet and fee schedule contain corrections to the documents issued on September 15. The corrections were made to the following items:

Addition to Residence: Changed from \$10 to \$25 to be consistent with the fee for accessory structures.

Commercial and Manufacturing Signs: Changed from \$10 to a \$25, 50, and 100 fee based on sign areas.

Billboards: Changed from \$10 to \$100 to be consistent with Commercial and Manufacturing signs.

Please replace the September 15, 1997 documents with these revisions.
